

## Pyramid Project

Make a 3-sided pyramid using the following criteria about the legislative, executive and judicial branches of our government:

1. Using 3 sheets of paper, fold corners into the middle to make a triangle- you will need 3 triangles. Example:

2. Each triangle will contain information about one branch of the government. Illustrate/write as many powers each branch has that you can find. Use the Chart of the Three Branches, or the textbook pgs. 223-227.
3. You need to accurately show at least 4 powers for each branch.
